The Canadian Society of Safety Engineering is Canada's largest and most established organization for health, safety and environmental practitioners.

## VISION

To be the voice of safety in Canada

## Mission

To be the resource for professional development, knowledge and information exchange to our members, our profession and the Canadian public.

# GREAT REASONS TO JOIN CSSE!

**CSSE membership is a must for any individual or business taking safety and health in the workplace seriously.**

**1**

### **ANNUAL NATIONAL CONFERENCE**

A can't miss event, the CSSE Annual Professional Development Conference is the largest gathering of Environmental, Health and Safety professionals in Canada and brings together practitioners from around the world to network, discover new solutions and problem-solve the greatest issues concerning our industry today. Held in a different location across Canada every year, the conference is an exciting and fun way to connect with your colleagues while staying in touch with those issues that are so important to all of us.

**2**

### **STAYING CONNECTED**

CSSE is all about building communities. With more than 2,200 members across Canada, CSSE has developed a strong network of like-minded Environmental, Health and Safety professionals and resources.

CSSE offers local seminars and networking activities through a chapter structure at the local level. Most chapters hold monthly meetings to network with their peers and to exchange information. With 31 chapters across Canada, there is sure to be one near you.

**3**

### **SPECIALIZED PROFESSIONAL DEVELOPMENT**

The Certified Health and Safety Consultant (CHSC) designation recognizes and promotes excellence in the area of professional occupational health and safety consulting. Unlike other safety designations, a CHSC designation evaluates you and certifies your competence in the application of technical and managerial knowledge within the context of a consulting relationship.

From basic certificate courses to advanced programs, CSSE has developed and continues to develop opportunities for Environmental, Health and Safety professionals to enhance their skills at a discounted rate. A full listing of courses we offer is available at [www.csse.org](http://www.csse.org).

**4**

### **CONTACT**

The unrivalled coverage of health and safety in the CSSE newsletter, *CSSE Contact*, published four times a year, includes the latest industry news and articles that are specifically of interest to CSSE members and their employers, keeping you up to date on current topics and up-and-coming industry issues. Our electronic newsletter is complimentary to members.

**5**

### **MEMBERS ONLY!**

As well as having access to the public CSSE website, offering Society information and current international health and safety news, members have access to our members-only area containing chapter information, resource areas, a resume posting section and a threaded discussion board which allows members to communicate with one another all across Canada.

**6**

### **DISCOUNTS AND FREEBIES!**

#### **■ Insurance Coverage Discounts**

These days insurance at a reasonable rate is becoming hard to come by. We are happy to announce that CSSE members are able to receive significant premium discounts (depending on your insurance history) on both Professional Liability insurance through LMS ProLink and home and auto insurance through Johnson Insurance.

#### **■ Canadian Occupational Safety Magazine**

Free to CSSE members.

#### **■ Discounts on Technical Publications**

John Wiley & Sons Ltd., publishers of fine legal, technical and research publications, offers special discounts to CSSE members.

#### **■ Discounts on CCOHS Products**

10% discount on products and services offered by the Canadian Centre of Occupational Health and Safety.

#### **■ US Trends in Professional Safety Magazine**

CSSE members may subscribe at the ASSE Member rate of \$17.50 US.
